Ordering the Software

To know more about **Stellar Phoenix Data Recovery for iPhone**, click https://www.stellarinfo.com/media-tools/iphone-data-recovery.php

To purchase the software online, please visit https://www.stellarinfo.com/media-tools/ios-data-recovery/buy-now.php
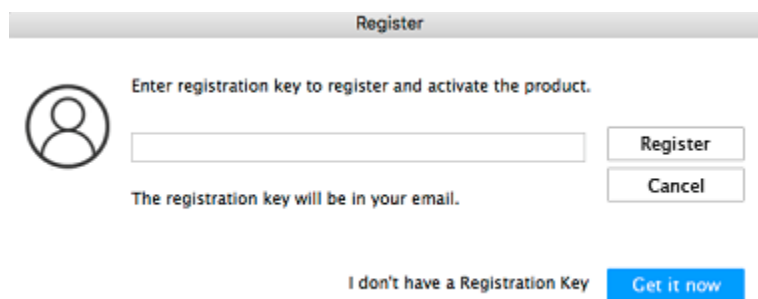

Select either of the methods given above to purchase the software.

Once the order is confirmed, you receive a registration key through e-mail. You require this key to activate the software.

Registering the Software

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you receive via email after purchasing the software.

To register the software:

1. Run the demo version of **Stellar Phoenix Data Recovery for iPhone** software.

2. On the main user interface, click the **Register** option. The **Register** window is displayed as shown below:

3. If you don't have the registration key, click the **Get it now** button in the window to go online and purchase the product.

4. Once the order is confirmed, a **Registration Key** will be sent to the email provided.

5. Type the **Registration Key** (received through email after purchasing the product) and click **Register** button (Please ensure that you have an active Internet connection).

6. The software will automatically communicate with the license server to verify the entered key. If the key you entered is valid, the software will be registered successfully.

7. The ' **Activation Completed Successfully** ' message is displayed after the process is completed successfully. Click **OK**.

Updating the Software

There are periodic software updates for **Stellar Phoenix Data Recovery for iPhone**. The software updates should be done to keep the software up-to-date. The updates can be a newly added functionality, a new feature, a new service or any other information that can be important for improvement. The update option in the application is capable of checking for the latest updates. It checks the both latest minor and major versions available online. You can easily download minor versions through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it is recommended to close all running programs. Note that the demo version cannot be updated.

Click on **Update** button on the main user interface to update the software.
